

The German-Australian Students' Society is the association of former scholarship recipients of the SAGSE exchange.

We aim to strengthen and develop the German-Australian relationship through goodwill in action. We volunteer to assist in the running of the SAGSE exchange, whilst aiming to create further experiences for members.

GASS is a network and a family, hoping to bring people of all backgrounds with a common interest in the German language, culture, and people together.

Our members are defined by their:

Openness to experience

We are welcoming and inclusive of all people, and have a love of learning and adventure that sees us willing to leave our comfort zone, be adaptable, and show resilience. We embrace personal growth and have a positive energy and attitude.

Passion

We strive to create positive experiences and share them with others, showing commitment to the cause, approach life with zeal, and have fun in everything we do.

Community-mindedness

We have a strong connection to the German people, language, and culture that we continually foster. We are grateful to SAGSE and GASS for the life-changing experience we received, and aim to be leaders within that community so we can continue to create these opportunities for future generations.

Professionalism

We are respectful, value teamwork highly, and strive for continuous improvement. We go about our business with integrity and commit to finishing what we start.
